Summary

I'm a motivated and results-driven pre-final year student with a strong interest in machine learning, software development, front-end technologies, management and cybersecurity.

Technical Proficiency

- **Programming Languages:** Python, C++, Java, Javascript,HTML, CSS, MySQL
- **Software Dev Tools:** VS Code, Git, Google Colab, Postman, Docker, Jupyter Notebook
- **Operating Systems:** Linux (Ubuntu), Windows
- **Frameworks/Technologies:** React, Flask, SQLite, TensorFlow, PyTorch, OWASP, REST APIs
- **Expertise:** Machine Learning, Frontend Development, Web Development, Software Development, Project and Event Management

Education

Degree/Level	Year	Institution/Performance
B. Tech (CSE) Core	2023-Ongoing	Vellore Institute of Technology, Bhopal (CGPA: 9.05/10)
Class XII	2023	GVN The Global School, Bhopal, Madhya Pradesh (85.2%)
Class X	2021	Carmel Convent Senior Secondary School, Bhopal, Madhya Pradesh (96.4%)

Experience

1. **Media and Content Lead of SDC** (*50K+ Audience Reach, 1M+ Impressions*)
2. **PR and Outreach Team: ICreate club** (*Handled 500+ Outreach Contacts, Secured 20+ Partnerships/Collabs*)
3. **Event Management Team: WiCyS VIT Student Chapter** (*Managed 10+ Events, 1.5K+ Participants*)
4. **Community Member: KRAAFT entertainment**

Awards and Recognition

Rank	Hackathon	Date
1st	CyberSecureX CTF by KIET	08/06/2025
3rd	IIIT Naya Raipur CTF	06/04/2025
1st	NEC Techfest CTF	15/03/2025
Top 10	GDSC University Development Hackathon	16/08/2025

Projects

1. Improving Object Detection Efficiency through Joint Information Theory and Network Coding Techniques.

- Explored innovative methods to enhance object detection accuracy and computational efficiency. Applied network coding principles to optimize data transmission and reduce redundancy.

2. Performance Benchmarking of Conventional and Ensemble Learning Models in Early Lung Cancer Detection

- Compared ML and ensemble models to improve early lung cancer prediction accuracy using clinical and imaging datasets.
- It evaluates accuracy, precision, recall, F-1 Score and AUC-ROC to identify the most reliable diagnostic model. Results show that ensemble models outperform conventional approaches.

3. Gramin Rozgar - Employment Platform for Rural Workforce

- LinkedIn-like employment platform for rural daily wage workers to connect with verified employers
- Tech Stack: Frontend(React18, HTML, Tailwind CSS, JS, AXIOS), Backend (FastAPI, JWT, BCRYPT), Database(MongoDB)

4. WeSecure Android Application: An app which aims to resolve safety issues through quick alert systems

- Developed a safety app with one-tap alert, SMS/Messaging APIs and real-time GPS sharing for emergencies. Tech Stack: Java, Android Studio, GPS/Location Services, SMS API, Firebase
- Tech Stack: Java, Android Studio, GPS/Location Services, SMS API, Firebase

Certifications

- NPTEL Fundamentals of Machine Learning: **Score: 72/100**
- FreeCodeCamp: **Responsive Web Design**
- IntelliPaat: **AWS Certification Course**
- AWS Technical Essentials
- Hackerrank 5 star: **Problem Solving in Python**
- Introduction to Matlab: Basic and Features
- Introduction to Problem Solving [Vityrathi]
- Fundamentals in AI/ML [Vityarathi]
- Hackerrank 5 star: **Python**

Co-Curricular Activities

- **Cricket:** Represented in Aarambh 2023 inter-college league (VIT Bhopal).
- **Badminton:** Represented in Aarambh 2024 inter-college league (VIT Bhopal).
- **Hobbies:** Swimming, Skating, Kho-Kho, Pianist, Nature explorer, Photography
- **Languages:** English, Hindi, French, Japanese(learning)
